Regarding Porsche 4742914988,

Thank you for your recent request for the Classic Technical Certificate. This packet is our documentation of important production information and technical specifications for your classic Porsche vehicle. Your Porsche Classic Technical Certificate (CTC) includes all original vehicle data we could collect through extensive research from Porsche AG archives and records preserved at the Porsche Museum in Stuttgart.

Due to the condition of original factory records, vehicle repair/restoration history and other circumstances beyond our control, there may be gaps in the CTC documentation for interior/exterior color, drive system types and serial numbers, and optional equipment.

Nonetheless, every effort has been made to ensure accuracy and the information in your CTC represents the best results possible from the sources at hand. Your CTC can be regarded as the final record for your classic Porsche vehicle's technical documentation.

We wish you many years of driving enjoyment with your classic Porsche vehicle.

Best regards,

**Porsche Classic Technical Certificate for Porsche 4742914988**

Fascination for Porsche Classic vehicles is always closely linked with Porsche history. We are proud of our history and appreciate that your car is a part of it. Your Porsche Classic vehicle's part in Porsche history is further enhanced with the Porsche Classic Technical Certificate. This document was created for your Classic 914/4 Roadster showing your vehicle's status and options at the time of delivery in model year 1974. It includes all vehicle data available as of this writing. Your Classic Technical Certificate also states whether your engine and transmission number and type remain consistent with the vehicle's original equipment trim and options at the time of delivery. The findings listed on the Certificate are confirmed by visual inspection of all markings present.

### Expert opinion from your Porsche Classic Partner:

A visual inspection of the engine serial number indicated a match and the transmission serial number was unable to be referenced to our original serial numbers records. Overall, the vehicle is in excellent condition over all subsections. The paintwork is in excellent condition and shows minimal inclusions. The body is in excellent condition and shows no visible damage. The interior appears in good condition corresponding to the year of construction. The engine has some minor leakages (sweating) but causes no acute need for action. The front pads are only showing minimal wear and front rotors are only showing minimal wear. The rear pads are only showing minimal wear and rear rotors are only showing minimal wear. There is no need for action with the suspension, it's in excellent condition. Thank you very much for bringing your car and we are very much looking forward to seeing you again.

The information in this certificate listing the original delivery state of your vehicle has been researched to the best of our knowledge. We assume no liability for the accuracy of the information provided. Furthermore, this certificate contains no declaration concerning whether the vehicle is currently in its original delivery state.
