

INTRODUCING
AUTOMOBILE SERVICE
FOR PEOPLE

THERE ARE BETTER WAYS TO SPEND A MORNING THAN CIRCLING THE BLOCK.

Getting to the entrance of the typical Manhattan service facility is, unfortunately, not the same as getting inside.

Just driving halfway around the block to the end of the waiting line, and inching your way from the end of the line to the front, can eat up 30 or 40 minutes.

The new, block-long Porsche Audi Manhattan Service Center, at 547 West 47th Street, is designed to spare you this experience. It has room to handle as many as 60 cars a day. Inside. Not waiting out front.

HOW CAN A MECHANIC SOLVE YOUR PROBLEM BEFORE HE LETS YOU TELL HIM ABOUT IT?

Our mechanics are trained according to a curriculum set down by the Porsche and Audi factories. This is probably the best training in the world, but it doesn't include mental telepathy.

So, once you're out of your car, one of our Service Advisors will discuss its symptoms with you. This way, you don't pay for hours of diagnostic labor that serves only to uncover a problem you could have described in minutes.

AUDI 100LS

A BILL SHOULD DO MORE THAN JUST DEMAND YOUR MONEY.

Bills are supposed to do two things. First, they should tell you how much you owe. But while bills from most auto service centers are quite good at this, they generally fall down on the second thing. Which is explaining how come you owe what you owe.

When Porsche Audi Manhattan presents you with the bill, it's fully itemized, clearly written, and totally unobscured by shop dirt, fingerprints, etc.

But we realize that being able to read your bill isn't the same as being able to understand it. So whatever your bill doesn't make clear to you, our Service Advisor will. Simply. Patiently. Courteously.

PORSCHE 914

YOU WANT YOUR CAR TO LOOK AS BEAUTIFULLY AS IT RUNS.

It's hard to believe your car is running like a dream when it looks like a nightmare. So unless we're too jammed up to do it, we'll give your car a washing and vacuuming, free of charge. Even when we're too rushed to wash your car, we'll never be too rushed to keep it free of grime, oil puddles, and greasy handprints.

Also, if your car's appearance has been marred by something stronger than dirt, we have what may be the most complete bodywork facility outside the factories. So we can restore any Porsche or Audi to factory color, finish, and condition.

YOUR WARRANTY SHOULD ENTITLE YOU TO MORE THAN A BRUSH-OFF.

People with warranty work are usually treated like people with contagious diseases. But not when they come to Porsche Audi Manhattan.

Since we sell Porsches and Audis as well as servicing them, we know and respect the warranty. But what's most important, we honor it. If there's any little defect that slipped by all the quality controls and inspections at the factory, we welcome the chance to set it right at no cost to you. Even if you bought your Porsche or Audi from another dealer.
