|------------------|-----------------------|
| 914 1.7 | 28 mpg (DIN 70030) |
| 914 2.0 | 29 mpg (DIN 70030) |
| 911 T | 26 mpg (DIN 70030) |
| 911 E | 24 mpg (DIN 70030) |
| 911 S | 23 mpg (DIN 70030) |
| Audi 100 LS | |
| Standard Trans. | 24 mpg (DIN 70030) |
| Automatic Trans. | 22 mpg (DIN 70030) |
| Audi FOX | |
| Standard Trans. | 25 mpg (DIN 70030) |
| Automatic Trans. | 23 mpg (DIN 70030) |

With fuel shortages and increases in gasoline prices in the offing, the Porsche + Audi concept of economic transportation takes on even greater meaning.

This gas cost calculator shows how Porsche + Audi saves both gas and money. Savings that most larger cars just can't duplicate. And savings in gas usage to help during the energy crisis.

It's all here, in this handy calculator. So, find out the customer's average annual mileage driven. Feed in the local cost of gas per gallon. Ask the customer for the gasoline mileage he is getting on his present car. Then, read off his average annual cost for gasoline. Compare it with the Porsche + Audi he's interested in and show him how much he will save.

M.P.G. based on DIN 70030
