Styling

Tops of transparent high performance plastic. Distinctive tinting and color lets the view in . . . but keeps the wind, noise, and burning rays of the sun out. The smoked bronze color was selected to complement all production body colors. And Saratoga Tops fit all 1968-1976 914s.

Styling

Tops of transparent high performance plastic. Distinctive tinting and color lets the view in . . . but keeps the wind, noise, and burning rays of the sun out. The smoked bronze color was selected to complement all production body colors. And Saratoga Tops fit all 1968-1976 914s.

Comfort

These tops do more than offer the sensation of openness. They also offer expanded headroom. And Saratoga Tops' weather-seal eliminates all wind and water leaks.

Installation

Saratoga Tops require no drilling, adapters or body modification. Your top snaps into place using existing fittings. It takes only a minute and you don't need tools. When not in use, your top fits snugly into the trunk . . . just like your stock top.

Rear locking mounts

Made of high density material.
And they're a snap to use ... just
like the original equipment fitting.

Locking device

Cast in aluminum and loaded with a
spring loaded for a light fit. The black
matte finish complements your
car's interior.

grade automotive rubber available
to give complete protection from
the elements. And bright aluminum
trim gives added protection and looks.
