

THE COOL CLASSICS

THE COOL CLASSICS

Porsche 911 and 914.

Bred on the racing circuits of the world with winning performance and reliability.

Audi 100.

Combining automotive craftsmanship with first class quality and luxury.

Comfortable automobiles that meet your driving needs and pleasures.

Cooling comfort should also be part of your new automobile.

Air conditioning that doesn't strain your engine.

Air conditioning that vanquishes dust and outside odors.

Air conditioning that dehumidifies.

Most important,
air conditioning that cools
quickly and consistently.

We have this and more.

Like a reliable warranty that's good for one year or 20,000 miles, whichever comes first.

Paint your own comfort picture in your new Porsche or Audi with cool air conditioning from Volkswagen Products Corporation.

The environmental systems people who make your driving a cool pleasure.

PORSCHE 911

Quality air conditioning for the quality sports car. The slim evaporator blends perfectly with the dash and matches the surface material of the dash. Easy to reach controls provide maximum cooling comfort at a simple turn. Turn the Temperature Mode Selector to the desired cooling range and select one of the three powerful fan speeds. Four directional louvers allow you to direct the air flow for your driving comfort and cooling pleasure.

- Fits all 1972 through 1974 E, T, and S models
- Powerful three-speed fan and adjustable thermostat
- Four directional louvers to provide maximum air distribution

Kimbell Art Museum, Fort Worth, Texas*

PORSCHE 914 and 914S

Performance, economy, and driving comfort is part of your 914 equipped with cool air conditioning. Cooling comfort within easy reach by simply turning a knob. Turn the Temperature Mode Selector to the preferred cooling range and select your most comfortable of the three powerful blower speeds. Four directional louvers give you maximum air distribution for your personal driving comfort and pleasure.

- Fits all models 1971 through 1974
- Powerful three-speed fan and adjustable thermostat
 - Trim evaporator fits flush under dash.
- Four directional louvers for maximum air distribution

AUDI 100

First class quality and luxury plus the cooling comfort of reliable air conditioning. Your Audi 100 has been designed to provide comfortable performance and economy and so has the air conditioning. Comfortable cooling at the flip of a switch. You select the cooling range by sliding the Temperature Mode Selector and choosing the most comfortable of the three blower speeds at the Fan Control Switch. Three directional louvers in the dash provide maximum air distribution for great cooling comfort.

- Fits 1971 (January production on) 100LS models and 1972 through 1974 100, 100LS, 100GL models
- Powerful three-speed fan and adjustable thermostat
- Three directional louvers in the dash for maximum air distribution

MAINTENANCE

The air conditioner is to be checked each time a regular maintenance service is performed on the vehicle. Air conditioner maintenance includes: checking the proper refrigerant level in the system, electric fan, blower and switches for good working order, condenser coil for cleanliness and overall appearance of hose lines and protective screens. This maintenance service is at the expense of the owner.

It is recommended that the air conditioner be operated regularly during the off-season for a few minutes to keep the seals and fittings properly lubricated. Loss of refrigerant may otherwise occur, which is normal requirement on any automotive refrigeration system.

WARRANTY

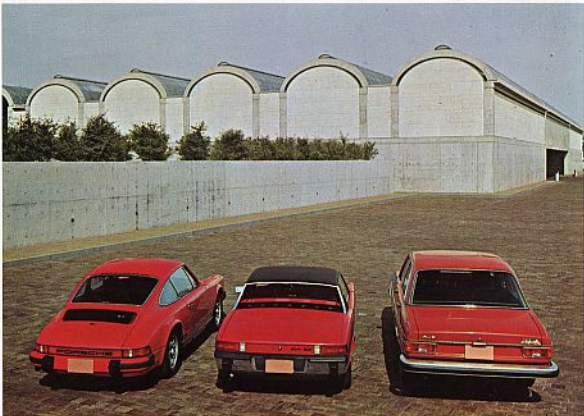

WARRANTY FOR NEW AIR CONDITIONERS INSTALLED IN PORSCHE AND AUDI VEHICLES issued by Volkswagen Products Corporation (VPC), a subsidiary of Volkswagen of America, Inc., the authorized United States importer for Porsche and Audi vehicles.

Free repair or replacement in the United States of defective parts for 12 months or 20,000 miles

Maintenance required to keep warranty in effect

Items not covered by warranty

No other warranties made

1. VPC warrants that every 1974 air conditioner manufactured and sold installed in a new vehicle to a retail customer will be free from defects in material and workmanship, including belts and hoses, for 12 months after the date of delivery of the vehicle to the original retail customer or until the vehicle has been driven 20,000 miles, whichever comes first. This warranty is limited, however, to the following: If the air conditioner becomes defective under normal use and service, and is brought during this period to the workshop of any authorized Porsche/Audi dealer in the continental United States, or Hawaii, the dealer will, without charge, repair any defective part or replace it with a new factory reconditioned part.

2. In order to keep this warranty in effect, the owner must have the air conditioner maintained and serviced as prescribed in the VPC Maintenance Schedule. Maintenance services and the replacement of refrigerant, unless it is required when performing a warranty repair, are at the expense of the owner.

3. VPC is not responsible for (i) damage or malfunctions resulting from improper installation, accident, misuse, negligence, unauthorized alteration, or the installation of non-genuine parts; (ii) damage or malfunctions resulting from failure to follow recommended maintenance requirements; and (iii) loss of time, inconvenience, loss of use of the vehicle or other consequential damage.

4. This warranty for VPC air conditioners is in lieu of all other express warranties of VPC, the vehicle manufacturer, Volkswagen of America, Inc., the distributor and the selling dealer. Neither VPC nor Volkswagen of America, Inc. assumes, or authorizes any person to assume, on its behalf, any other obligation or liability.
